Share Yourself Artists

Product Name: Share Yourself Artists
Team Name: SYA Team Flutter
Sprint Completion Date: 11/4/18
Revision Number: 0
Revision Date: N/A

Goal: The goal of Sprint 2 is, first and foremost, to finish the user stories leftover from Sprint 1. We will continue our team roles from Sprint 1 for four days, and then change our roles according to the specifications of the Sprint 2 Plan. The goal of the second half is to implement the business flow according to our release plan.

Task Listing, Organized by User Stories

- **User Story 1**: As an artist or a business, I would like to be able to use my account to sign into the mobile application. (**5**)
  - **Task 1:** Using the provided Adobe XD prototype, design a home screen page with a sign-in button, a login page, and a signup page for artists
  - **Task 2:** Integrate Firebase interactions with front end pages (including Google and Facebook OAuth).
- **User Story 2:** As a business, I would like to view and have curating power to all submissions made to my blog. (**5**) - swarm methodology
  - **Task 1**: Create a list view for all submissions with thumbnails of the submission as well a some information regarding the piece.
  - **Task 2**: Create Firebase functions to handle successful submission, deletion, and curating timeout after two days.
- **User Story 3:** As an artist, I would like to be able to receive feedback from other users on my artwork. (**5**)
  - **Task 1:** Allow temporary testing input to leave comments and feedback on individual art pieces (mock Business user functionality)
  - **Task 2:** Format the structure of the feedback to be a live feed.
- **User Story 4:** As an artist, I would like to be able to upload artwork. (**3**)
  - **Task 1:** Using the provided Adobe XD prototype, create a page for uploading pieces of artwork.
  - **Task 2:** Implement the ability to upload files (pictures, songs, etc.) to the Firebase database as well as the corresponding buttons.
  - **Task 3:** Implement download capabilities from both files and URL.
- **User Story 5**: As a business, I would like to update my profile when necessary. (**2**)
  - **Task 1:** Create a UI design that takes data to be submitted to the database.
  - **Task 2:** Create a Firebase function to upload new submitted data.
- **User Story 6**: As a developer, I would like to complete the CRUD app from the previous sprint with test functionalities. (**2**)
  - **Task 1**: Configure HTTP requests with Firebase functions.

Total Story Points: 22
